

# Nirma Perera

347-400-6468 • [nirmaperera23@gmail.com](mailto:nirmaperera23@gmail.com) • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Frontend developer with a sharp technical acumen who is familiar with the entire web development process from design and development to testing and deployment; poised to leverage keen programming and designing expertise in an agile environment.

---

## SKILLS

**Languages:** HTML5, CSS3, Sass, JavaScript, jQuery, Python, C++  
**Frameworks & Libraries:** React.js, Redux, Jasmine, Bootstrap  
**Software & Tools:** Adobe XD, Figma, Sketch, Git, Kanban, Confluence, JIRA, Webpack

---

## EXPERIENCE

**Front-End Developer Intern, Narrativ, NY, New York** February 2019 - May 2019

- Assisted in refactoring the dashboard application from Angular to React
- Held concurrent responsibility for writing unit tests in Jasmine
- Refactored SASS files in Angular Application and fixed bugs in the React Application
- Provided overarching support and assistance to the development team, participated in multiple scrum meetings and reviews, learned best SEO practices and new tools and emerging technologies.

---

## PROJECTS

**National Grid Redesign (React JS, Redux, SASS)** October 2019 - November 2019  
<https://national-grid.herokuapp.com>

- Designed and developed an application based on the National Grid Login website with key features of registration, user authentication, state persistence, pay bill, and user profile.
- Created modular and responsive templates using modern css techniques and javascript libraries

**Baker's Book (React JS, Redux, Firebase)** March 2019 - May 2019  
<https://bakersbook-74fd9.firebaseio.com>

- Built an interactive web application and provided a platform for bakers to share their recipes with other bakers
- Developed the Front-End using React.js and Redux for state management
- Designed the user interface by creating wireframes and using tools such as sketch

**Wine Recommendation (React JS, Python, PostgreSQL, Quini Wine API)** June 2018 - August 2018  
[Wine Recommendation](#)

- Architected a web application that recommends wines based on users' preference and different attributes of wine from the database of thousands of wines.
- Created quality mockups and prototypes and developed the frontend using HTML5/CSS3 and React JS.
- Assisted back-end developers with coding and troubleshooting

---

## EDUCATION

**Bachelor of Arts in Computer Science, Minor in Mathematics** June 2019  
Hunter College of City University of New York, New York City, New York  
*Relevant Coursework: Web development, Discrete Structures, Computer Architectures, Computer Theory, Software Analysis and Design, Operating Systems, Computer Networking and Security, Calculus, Matrix Algebra, Applied Statistics*  
**Former Candidate for Tech Talent Pipeline (TTP) Residency Program 2019**
